

December 2008

to our friends...

Firstly we want to deeply thank you for supporting us in our training and preparation to begin planting a new church in 2009. Your generosity, encouragement and prayers have enabled us to do the work God is calling us to. Your love and partnership has and is profoundly important to us as a family.

We also want to share with you that after a good deal of time prayerfully working through issues and details we are pleased to share that we have decided to partner with the Presbyterian Church of Queensland to plant a new church in the inner city region of Brisbane, Queensland. This agreement will provide not only the denominational affiliation that is required for a new church but will also mean the provision of our family's financial needs both now as we complete our training and also when we begin to plant the church in mid 2009.

The reason we share this with you is twofold. Firstly, we want to deeply thank you for believing that starting new churches to reach people far from God is important. Thank you for your vision and generosity. Secondly, some may wish to continue to partner with us in this new work, and once we work out the appropriate process we will send out information about how you can financially support this new work in early 2009.

Again, we as a family are tremendously thankful to all of our partners for your prayers, letters, emails and gifts over the last five months. We trust God to continue to guide our way as we follow His Son.

Merry Christmas and much love,

Will, Nerida, Will Jr, Fergus and Archie Henderson
